## Bayer to issue mandatory convertible notes

## Leverkusen, November 15, 2016, 05:48 p.m. CET

The Management Board of Bayer AG (the "Company") decided today with the approval of the Supervisory Board to issue subordinated mandatory convertible notes for EUR 4 billion (the "Notes") excluding the pre-emptive rights of the shareholders of the Company.

The issuance of the Notes represents the first component of the previously announced equity capital measures of around USD 19 billion in connection with the contemplated Monsanto acquisition. The net proceeds of the offering are intended for the early replacement of a portion of the undrawn commitments under the syndicated term loan facility agreement entered into by Bayer.

The Notes, with a principal amount of EUR 100,000 each, will be issued by Bayer Capital Corporation B.V. under the subordinated guarantee of Bayer AG. At maturity outstanding Notes will be mandatorily converted into new or existing ordinary shares of Bayer AG.

The Notes will be issued at par, with a maximum conversion premium of 20 per cent to 25 per cent above the reference price and a coupon of 5.125 per cent to 5.625 per cent per annum. The reference price is expected to be equal to the share price determined in a concurrent placement of existing shares from hedging transactions of individual mandatory convertible notes investors.

The Notes will mature on November 22, 2019, whilst the terms and conditions provide for conversion rights of the noteholders and Bayer prior to maturity. The Company will determine the final terms of the offering including the coupon, conversion premium, reference price and issue size after completion of an accelerated bookbuilding process, which is expected to be finalized no later than November 16, 2016.

The Notes will be offered by a syndicate of banks via international private placements exclusively to institutional investors outside the United States, to non-U.S. persons in reliance on Regulation S of the U.S. Securities Act and to U.S. persons and into the United States to qualified institutional buyers only in reliance on Rule 144A under the U.S. Securities Act.

Bayer would like to expressly state that there is currently no assurance that the closing conditions of the agreed acquisition of Monsanto will be satisfied. The implementation of this capital procurement measure will not be done either with the intention of pre-empting a decision by the regulatory authorities nor can it be interpreted as an indicator of any information received by Bayer from the authorities concerning the outcome of the process.
