

# TRANSPARENCY AT BAYER CROP SCIENCE

## WHY TRANSPARENCY?

Now more than ever, agriculture is one of humanity's best solutions to feed a growing population while also caring for our planet.

But it will take all of us, working together and for that to happen, it takes trust in the science-based solutions we're developing to help build a sustainable future.

See how we are sharing our science:

# OPENLabs360° - SEE OUR SCIENCE

FOR QUESTIONS, EMAIL:  
[scientificresources@bayer.com](mailto:scientificresources@bayer.com)

## **MONHEIM, GERMANY**

The OpenLabs 360° platform features our Bayer laboratories in Monheim. You will see how our experts carry out product safety studies in the field and lab to ensure our results are reliable, verifiable, and reproducible.

## **CHESTERFIELD, MO**

Home to Bayer Crop Science's North America R&D Headquarters. We invite you to participate in our Innovation Experience Virtual Tour - a journey of the past, present and future of agriculture.

## **MARANA, AZ**

Walk through Bayer's seven-acre greenhouse in Arizona, where we are reimagining the way corn is grown around the world while setting the standard for environmental sustainability.
